Employing the Nation

The Veterans Health Administration (VHA) has more than 235,000 employees. It is the largest civilian employer in the Federal government.

The President's Agenda for Veterans

- Allow All Veterans Back into the VA
- Strengthen VA Care
- Combat Homelessness among Our Nation's Veterans
- Ensure a Seamless Transition
- Fully Fund VA Medical Care

Secretary Shinseki's Themes

- Access
- Homelessness
- Backlog

Secretary Shinseki's Vision

- Veteran Centric
- Results Oriented
- Forward Looking

VHA Vision Statement

VHA will continue to be the benchmark of excellence and value in healthcare and benefits by providing exemplary services that are both patient centered and evidence based.

This care will be delivered by engaged, collaborative teams in an integrated environment that supports learning, discovery and continuous improvement.

It will emphasize prevention and population health and contribute to the nation's well-being through education, research and service in National emergencies.

VHA Mission Statement

Honor America's Veterans
by providing exceptional
health care that improves
their health and well being.

VHA-Related Major Initiatives

- Eliminate Veteran Homelessness in 5 years.
- Implement Virtual Lifetime Electronic Records to enhance partnerships with DoD and others.
- Improve Veterans' mental health.
- Design a Veteran-centric health care model and right-sized infrastructure to help Veterans navigate the health care delivery system and receive coordinated care.

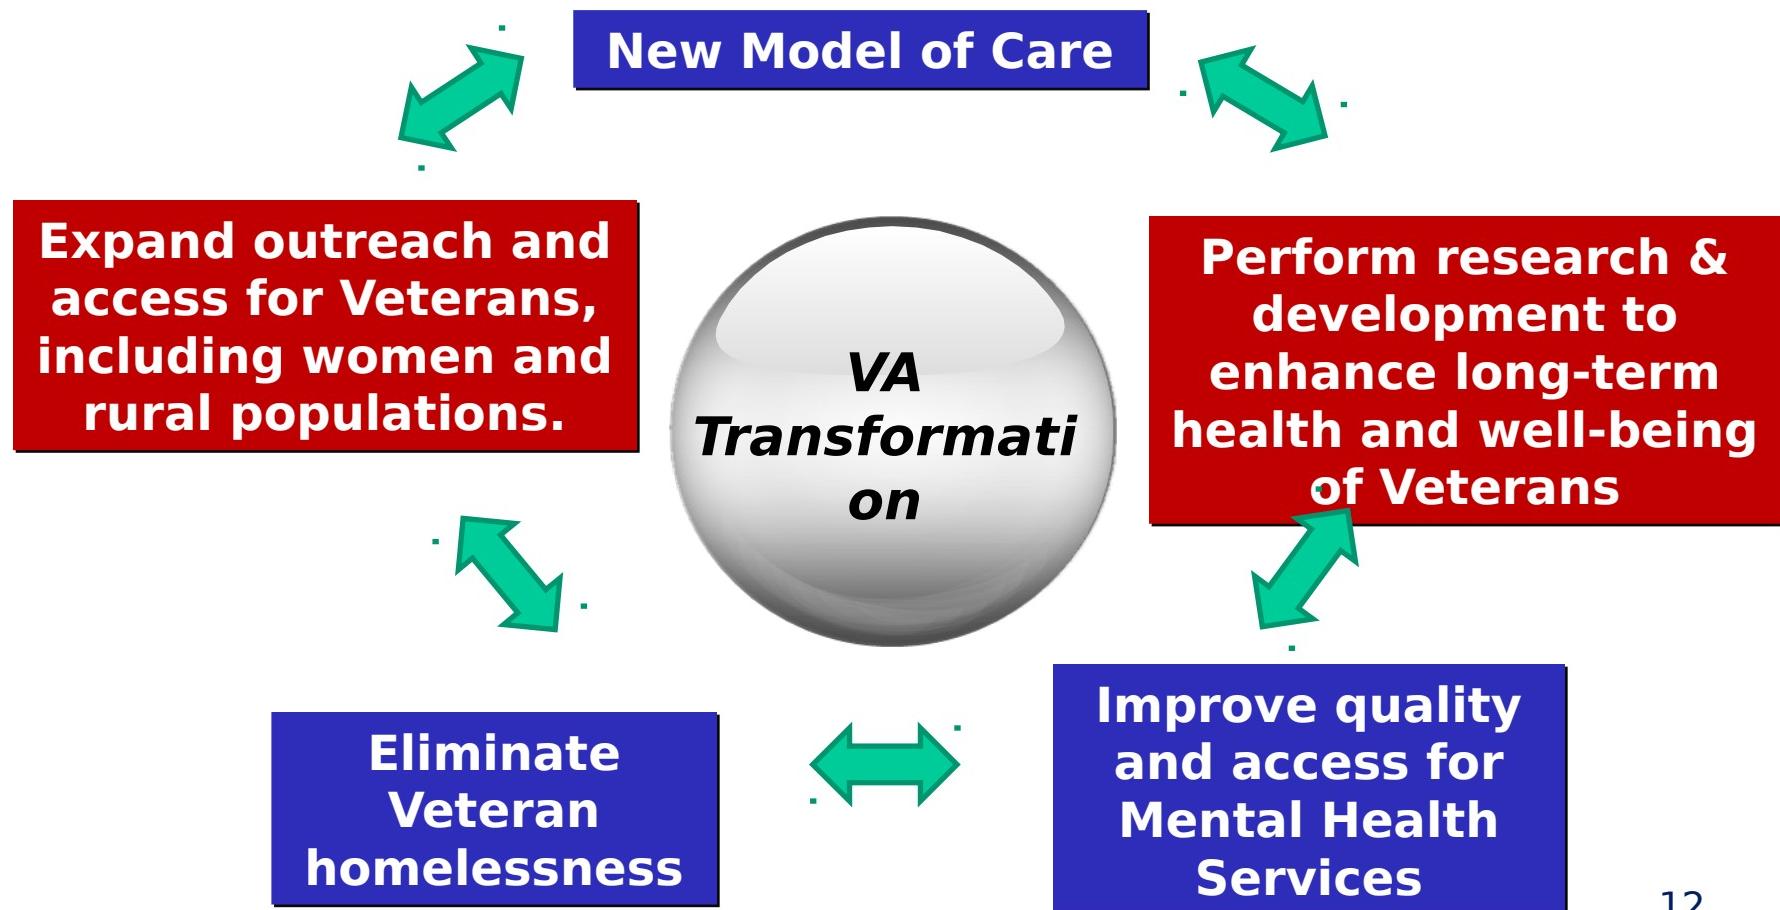

Dr. Petzel's Priorities

- Create a Vision for the Organization
- Align the Organization
- Reduce Variation

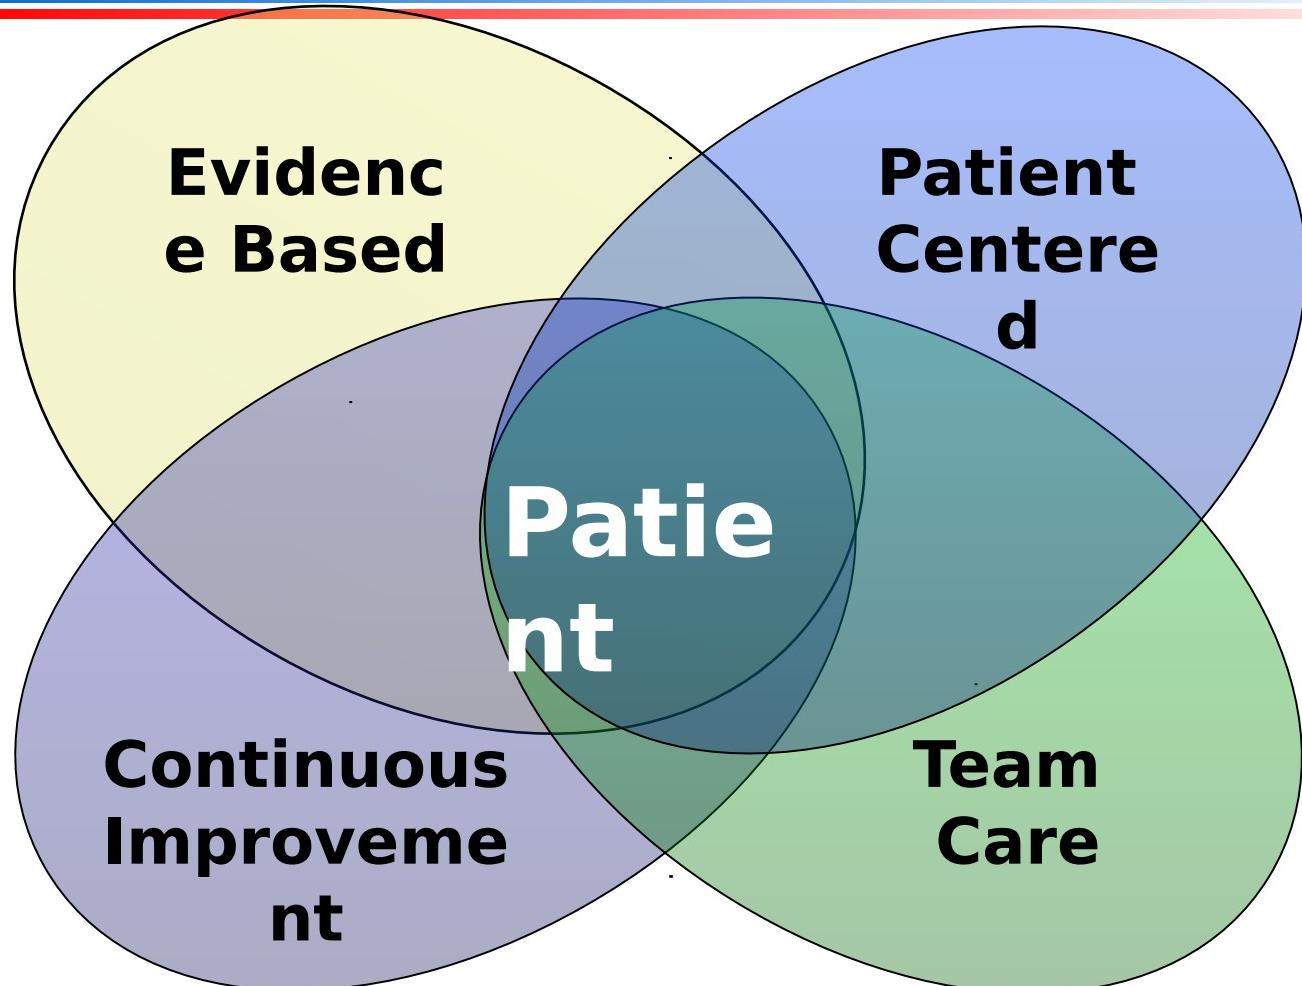

Transforming Care

VHA's Contribution to VA's Transformation

VHA's Future Delivery System

Patient Centered

- Patients in control of their health care
- System designed around the needs of the patient

Continuous Improvement

- Data about: Quality, Cost, Access and Satisfaction
- Time
- A corporate operating principle
- VHA System Redesign

Team Care The New Health Care Work Place

- Work is done in teams
- Team members regard each other as peers
- Teams are empowered
- Teams have data about cost, quality, satisfaction and access
- Teams use a continuous improvement process
- Teams have time
- Teams work collaboratively

Data Driven, Evidence Based

- Data about point-of-care performance
- Medical practice based on the evidence

What do we want to create?

Organization of Excellence

- Provides patient-centered care
- Provides coordinated care
- Is fully integrated
- Learns continuously
- Continuously improves its processes
- Is transparent

Organization of Excellence (continued)

- Continuously measures performance
- Manages its employees' skills and knowledge
- Empowers employees
- Works in teams
- Works collaboratively
- Has consistent and predictable performance

Agenda

- Every employee will be able to relate his or her work to the “organization of excellence” characteristics and to mission, vision and values
- All employees/work teams will have data about their cost, quality, satisfaction and access
- Continuous improvement will be a corporate operating principle
- Work will be organized by teams
- Teams will work collaboratively

Improving Outreach/Access

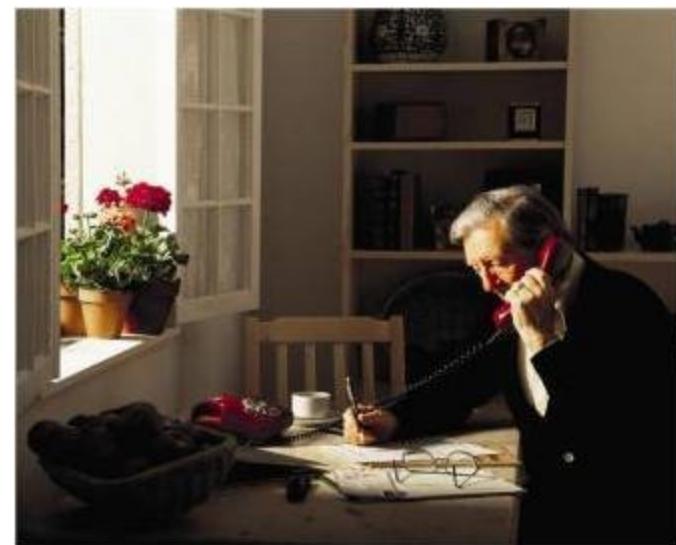

VA Outreach & Access

- Readjustment and Counseling for Women Veterans
- Transport for Immobilized & Rural Veterans
- Access to Care in Rural Areas
- Timely Access by Implementing Best Practices (Systems Re-Design)
- Seven Touches for OEF/OIF Veterans
- Health Care for Re-entry Veterans

Preventing Suicide

In just two years, the VA Suicide Prevention Hotline has helped more than 100,000 Veterans.

Preventing Suicide

We recently expanded the Veterans Suicide Hotline. Now, up to 350 callers a day can access the hotline.

The addition of Veterans Chat has expanded the reach of the Suicide Prevention program to Veterans who may prefer to communicate via the inter

Improving Wait Times

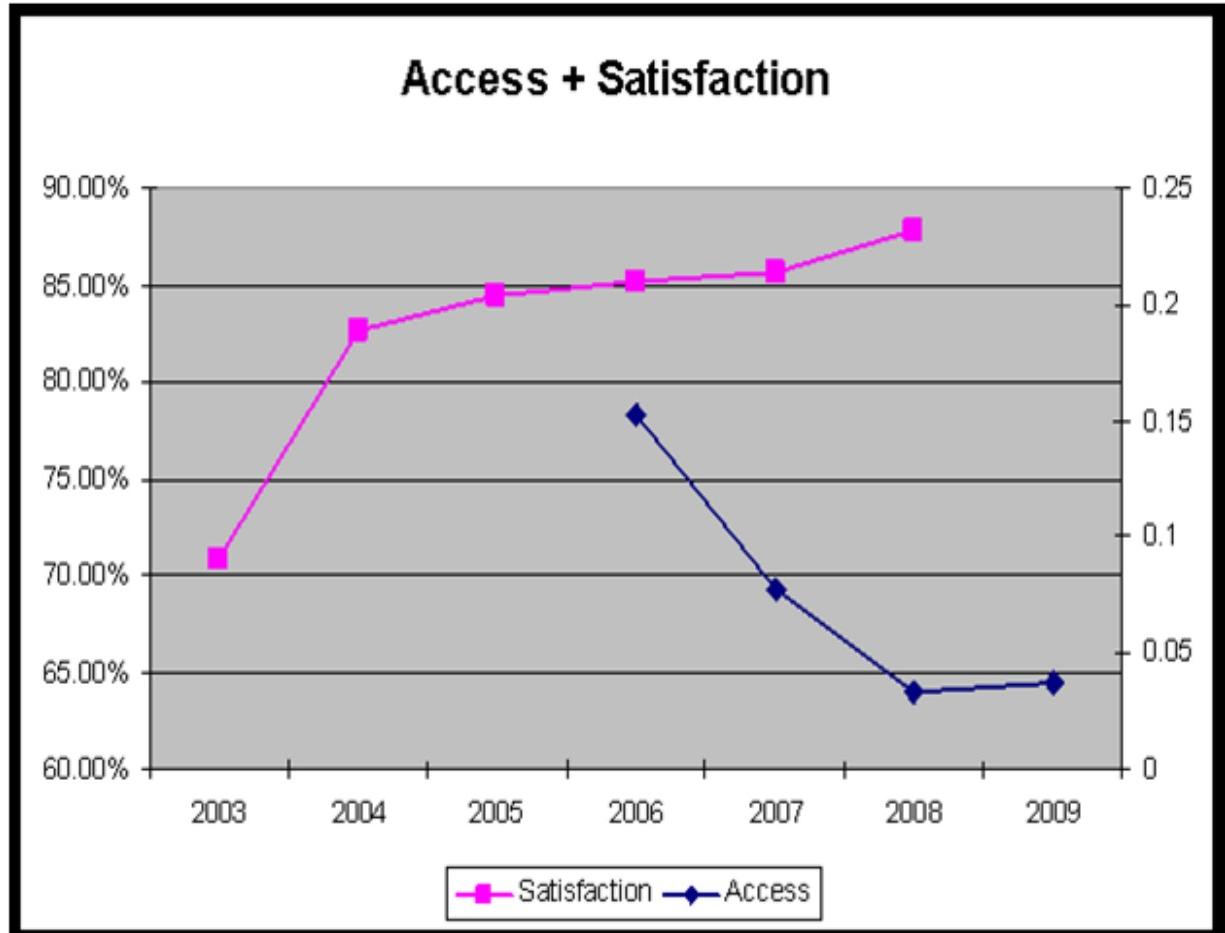

Improving Access & Satisfaction

Both access and satisfaction have improved:

- ❖ Patients waiting 31-60 days (70,000 in 2006 to 20,000 in 2009)
- ❖ Patients waiting 61-90 days (30,000 in 2006 to 5,000 in 2009)
- ❖ As access has improved, patient satisfaction scores have also increased from 70% in 2003 to nearly 90% in 2008.
